Article published on May 8th 2012 | [Investing](#)

It's true to be to validate some very important points to determine INVEST THAT MONEY EN QUE INVERTIR EL DINERO, accordingly can choose which one suits us, about our available capital and that we gain at the end of the investment.

You should always do with how much capital we have available, this is fundamental to our investment, and we should not take that money for no reason, and every effort is being made so that our investment is optimal and the best yields, and we must not take money from our investment since and we should have taken some necessary preventing medinas expenses and have validated INVEST THAT MONEY EN QUE INVERTIR EL DINERO.

For all we know we must analyze how far is with what one has, preventing all anticipated expenses and contingencies and so leave the rest to invest, as the case may not have enough money to invest in a project like this, we have other options INVEST THAT MONEY EN QUE INVERTIR EL DINERO as it could be something material.

I think it should validate some important points to know INVEST THAT MONEY EN QUE INVERTIR EL DINERO:

- 1.- We have to check it our investment capital.
- 2.- Knowing well that's what we want, since this depends on our capital.
- 3.- To set aside the capital available for our needs.
- 4.- Should be to prevent mishaps by some unplanned expenses.
- 5.- Determine a period within which it is to invest our savings.

I can think of certain points INVEST THAT MONEY EN QUE INVERTIR EL DINERO, so you can select some of the few financial products that exist and that better we come.

We confuse what is spend money it is investing the money, since they are two different things, which we must take proper account, because spending money is to go anywhere and buy a product and pay this; and invest the money is, so to speak, is stored in a bank, in a savings, in a brokerage, in a piggy bank or just in the mattress, but that if it is money which we will receive interest but which we will not touch at all.

Now yes, in good time, we are ready to invest our capital available that best suits us and give us the best performance of the financial market; term ending we stipulate to see how much we have gathered has to be spent on what we had planned or simply go to waste it and now if we INVEST THAT MONEY EN QUE INVERTIR EL DINERO.
