Article published on May 9th 2012 | [Jewelry](#)

Ever heard of “diamonds are a girl’s best friend”? They most definitely are. A diamond is the mark of eternity and everlasting love. It is the most precious gift you can give your lady love. Diamonds come in various shapes, sizes and colours. Setting a diamond in gold or platinum is a work of art. Diamond rings and pendants make a lovely anniversary or wedding gift as well due to their uniqueness.

Engagement rings

Engagement rings are usually diamond accented and set in a precious metal. Winnipeg engagement rings are timeless and classic. Their prices vary depending on the amount of diamonds and the kind of precious alloy used to set them in. Most diamond engagement rings are set in platinum or gold. In case you are not interested in the ordinary, look for unique designs like double bands and colored diamonds. These are also more expensive as compared to the other simpler designs. You can even pick out the shape of the stone like pear, heart and oval and cuts. The most common is the asscher and the round cut diamonds. Another important specific is of grading a diamond before actually buying a diamond ring. The most important of which is clarity. The best diamonds are flawless and the less expensive ones have minute inclusions which can be seen under magnification. To be fair, not everyone can spot a flaw. Most of the time it goes unnoticed to an untrained eye. However out of all the grades buying a VS or VVS grade is the best. It is not as expensive, at the same time it has minimal flaws.

Color and weight

While buying a diamond ring, always find out the color clarity. The color of a diamond ranges from colorless to light yellow. Colorless are generally the purest form of a diamond and is highly valued. At the end of the buy, it all comes down to what you prefer. You may not go for colorless but instead a slightly less flawed near colorless diamond depending on its price. Such diamonds are pretty reasonable. Carat or weight of the diamond is another essential factor that plays an important part in buying the right diamond. Remember to find out the correct diamond weight before ordering it. Be sure to choose a setting that can hold the weight of the diamond. A good size is a 1 carat diamond for a wedding or engagement ring. Always remember that buying a diamond ring does not mean it has to be large or proportionate to your love. It is simply a symbol of your everlasting love.

Online jewelry

You’ll find that buying jewelry in Winnipeg is not complicated or difficult. There are a few Winnipeg jewelry shops that have beautiful websites with exquisite diamond set rings for all occasions. Be it a wedding or engagement ring or simply for your wife on your anniversary, nothing expresses true love like a diamond.
