Mini loans – Quick cash just a message away [by Claire Hurley](#)

Article published on January 30th 2012 | [Loans](#)

Grab cash with your cell-phone? Now, you must be wondering how one can get the loan amount through mobile phone. But, it is true you can catch quick cash through your phone. Lenders have introduced the new way to offer loans to the applicants via SMS. It means citizens of UK can easily get the required funds by sending text message. Mini loans are gaining popularity among the new generation as it gives them the fastest and instant way to solve their cash needs.

For availing these mini loans one just needs to register himself with the lender. One can do so by filling one simple online application available at the lenders website. As soon they get your application they verify your details and send you a confirmation e-mail. In that mail they provide you the full detail about the terms and conditions and also provide your personal PIN number.

Mini loans offer an amount up to £100. This amount is reimbursed within a week or 7 days from the approval date. Neither you need to fax any documents nor need to submit any credit report against the loan lenders. In addition, you do not need to pledge any sort of asset as collateral aligned with the amount borrowed and so they carry marginally high interest rate because of being risk factors for the lenders. For the best rate deal you can analyze in the competitive online market and compare the multiple loan quotes of the lenders and this procedure will help you to carry out your wishes.

There are some certain preconditions to accomplish before applying with mini loans. In certain prerequisites you must be eighteen years of age, enduring citizenship of UK, regular employee with stable monthly income and must possess an active checking account. These loans are offered on receiving SMS to the lender so you must have a mobile phone to send message with a PIN code. After completion of these conditions you can acquire the money in instant span of time.

This is a kind of monetary facility where simple and easy credit is just a message away from the borrower. This money would solve your entire passing cash crisis in a jiffy.
