Today we are here to discuss about, one of the brand new product from the house of Sony Ericsson. And with the purpose, that you can understand the features and public reviews related to this handset better we have divided this conversation of ours, into two parts. Where in, the first part will hold the list of all the important features in it and in the second part you can find various comments and reviews this phone has received from the experts and users of the same.

Now to start with our discussion, below you can find some of the features of new Sony Ericsson XPERIA Play.

In the past few decades or so the evaluation in the market of mobile phone has grown to a huge extent starting from a regular mobile till the very smart phones and now you can also find the watch phones. These days finding a mobile with every person has become more than common, in fact it doesn't even matter what's the age of that person is, be it a six year old child or a sixty year old retired person, you can find a mobile with everybody (and sometime you can even find two). To be true to you, the mobiles phones have become such an essential part of our life that most of us can't even live without them even for a day.

After observing this trend of ever increasing demand in mobile phones, there are many companies who came into this business of manufacturing the same, but the advantage of latest technology and the capability of always providing something new to their customers was there with only a few. That's the very reason that even though there are many companies in the market, but still we can remember only the few of them. One such company who has always provided their customers with the best of technology and features in their product can be named as "Sony ericsson". And one of the latest products from the same company which brought a complete new era of mobile phone with itself is known as Sony Ericsson XPERIA Play.

As one can easily make out from the name itself this new Sony Ericsson XPERIA Play, is a handset from the company which has been fully dedicated to the better quality of gaming. Also loaded with Android v2.3 (Gingerbread) operating system and a 1GHZ Qualcomm Snapdragon processor, this product provided no reason to anyone, so that they can mark it anywhere less than an over budget smart phone. A 4 inch capacitive touch screen with a resolution of 854x480 pixels, a 512 MB RAM and a side slide for the better control over the game, are few of the reason which makes this new Sony Ericsson XPERIA Play price pretty much workable with the quality we are receiving.

If you are thinking that this all what you will get with this new Sony ericsson Xperia play than you might be wrong as, just like in any other high ranged mobile phone this handset is also coming with a excellent quality 5.0 mega pixel rear camera and a 0.3 mega pixel front camera, which provides you with the facility to do much more than just calling.

In fact looking at the various features we can say that this new Sony Ericsson XPERIA Play price in India is very much ok as compared to the other Sony Ericsson mobile price in the market.
