Samsung Galaxy Tab: the latest Mobile Phone in the market by [Sushant-tech](#)

Article published on April 26th 2012 | [Mobile Phones](#)

Mobile phones have come a long way back when these are used for distant communication. The present day cell devices are available with innumerable high-end features to cater to the requirements of all types of consumers. If you go through latest cell phone review, you can easily determine which phones serve your purposes the best. All the leading mobile phone manufacturers are coming with latest handsets in the market day-by-day. Almost all prominent brands give special emphasis on the unique features of their handsets to attract a large number of buyers from different parts of the globe.

One of the latest phones from Samsung is the Samsung Galaxy Tab gadgets. The Samsung Galaxy Tabs are known to be facilitated with more advanced features than the Apple iPad 2. These new gadgets are slim, light in weight and sturdily designed. In addition, these phones enable more portability in playing games as well as watching movies with its spacious 10 inch screen. As these phones are little bit smaller in size, these phones are highly suitable for reading books, browsing the web and checking email. These phones are ideal for the new generation mobile users, who are quite tech-savvy. Samsung Galaxy Tab phones are powered by Android 3.2 Honeycomb, which is an advanced operating system designed specifically for tablets. You can find a 2MP front camera for low-resolutions video chats and a 3MP rear camera for capturing photos. Besides, common applications and tools like Bluetooth, HSPA internet and Wi-Fi connections on board are available on these handsets. Samsung Galaxy Tab phones are light in weight and classy in terms of design and appearance.

Samsung Galaxy Tab 10.1 has a 7000mAh battery, which helps the phone to perform for nearly 10 hours. Besides, the battery is also very small in size and is known to be quite long lasting. According to latest mobile phones reviews, Galaxy Tab phones are equally effective in performing both official and entertainment purposes. Although these phones are comparatively expensive, it can be said that the price of these phones is quite justified on the basis of their latest applications, design, style and performance. Moreover, new Galaxy Tab phones are also appreciated for their bright clear screen, good bundled apps and fast processor. The phone lacks an USB port to add files using a flash drive or connecting a keyboard. However, there is extra portability on these phones because these are very thin and light in comparison to more computer-like tablets. Having an external memory of 16/32 GB storage and 1GB RAM, the Samsung Galaxy Tab 2 10.1 P5100 is capable of storing various data and other important files. Announced on February, 2012, these phones are yet to be released in India. Common applications such as YouTube, Calendar, Google Talk and Picasa integration are also available on these handsets. Standards messaging options like SMS (threaded view), MMS, Email, Push Email and IM have been installed on these Galaxy Tab gadgets. It is expected that the Galaxy Tab handset will do excellent business in India also.
