Sony Ericsson Xperia Active: a Magical Smartphone by [David Martin](#)

Article published on January 19th 2012 | [Mobile Phones](#)

The problem with a smartphone is that it too sensitive to moisture and dust. Mobile users are advised to avoid using their units with wet hands because water drops on their hands can slip down inside the phone and react with the critical mechanical parts. But there is a smartphone that can be used even in rain. And this phone is Sony Ericsson Xperia active. Hard to believe but true that this can be operated under any weather condition. This is phone is just perfect for the outdoorsman in you. Now receive or make calls when enjoying the rain or a pool party.

Sony Ericsson Xperia active comes with an excellent sealing that restricts the moisture and dust to the body of the phone. Sony Ericsson claims that its Xperia active can be used even from under 1m deep water. Amazing! Isn't it? It is apparent that no one will do this foolish act but the claim reveals the strength of the phone. Sony Ericsson's new smartphone can brave heavy downpour, dust storm and even a mud bath. The good part about this Xperia phone is that the adverse weather conditions have no effect on its smooth functioning like messaging, taking pictures and Internet surfing.

It's a great device for sportsmen and marketing professionals who are always on the go. Teenage students will find a right companion in the Xperia active that is always ready to help. The phone has striking features that can make anyone crazy. It's an Android phone with 1Ghz processor and a huge 1GB memory that can be increased up to 32GB with microSD card. Xperia active boasts impressive high speed data transfer features including 3G. It has direct access to Facebook and has got Google Talk, Google Search, Gmail and YouTube. Its 3 inch wide screen imitates a desktop computer and the capacitive touch screen makes typing messages a breeze. With all these features in mind, it will be appropriate to term this mobile phone, latest pocket computer.

A cool 5 MP camera completes the Sony Ericsson Xperia active. Hidden under the phone's waterproof housing, the camera can take pictures with surprising clarity even from inside a pool. Supported by touch-focus, geo-tagging and image stabilization features, the camera is just perfect to pictures in beautiful but adverse weather conditions. The phone also sports a front facing secondary camera for video calling. Handy 92 x 55 x 16.5 mm dimension further makes it convenient for the users to take pictures.

Yet another noteworthy feature of the Xperia active is its ability to examine your fitness level. The sports apps embedded in the mobile will help you keep track of your health and wellness. The phone also scores high on entertainment side. It has many features that are included in a mobile for the first time and to understand all the specification of the Xperia active, one has to use it for quite some time. The phone comes with two beautiful black and white interchangeable covers.
