XPR 4550: the New Age Two Way Radio from Motorola by [Julia Roger](#)

Article published on December 7th 2011 | [Music](#)

XPR 4550 is the one of the latest two way portable radio from the stable of Motorola. Portable radios are of great use and they are used commonly used in commerce and trade world in a variety of industries and for various purposes. Here is a brief guide to what you can expect from this device.

It combines the best of two-way radio with digital technology. That is because the Motorola XPR 4550 MOTOTRBO XPR 4550 digital mobile radio delivers increased capacity with longer battery, exceptional voice quality because of its new age speakers and microphones and integrated data communication through the industry's largest third party application developer program.

It is available in UHF and VHF frequency band and along with that; the XPR 4550 features an integrated GPS module, and an alpha-numeric display. It has a capacity of up to 1,000 channel four programmable buttons along with a large volume knob for ease of use and a powerful, front projecting speaker that is easily accessible. Hence, there are no unnecessary buttons. For well defined usage, it is perfect.

In terms of designing too, the Motorola XPR 4550 is one of the best. The body is made from superior quality metals and fibers so that they can be easily used in rough situations. No wonder they are also used by the military and other such areas of operation. The pricing is a little expensive but in terms of its usage, it is worth it. It can receive signals crisp and clear from even some tough locations and its two way function makes it portable and easy for use.

With all these advantages, you should definitely opt for a Motorola XPR 4550 if you are thinking of buying a portable radio. It will definitely give you first rate service.
