Protecting Your Pets with Advantage for Dogs and Cats and Advantage Multi by [Pawantechmagnate](#)

Article published on February 13th 2012 | [Pets](#)

Both Advantage for cats and Advantage for dogs are the best flea control products you can get for your pets. Advantage Multi is for the more the more serious and dangerous cases like heartworm and hookworm infestations, with the added benefits that Advantage for dogs or cats has. They are safe and effective topical solutions, one application is typically enough to kill fleas and other parasites and prevent re-infestation for an extended period of time. You can find both Advantage for cats and Advantage for dogs along with Advantage Multi easily at leading pet supplies store on the internet. Here are some of the benefits they offer:

1.The products are fast-acting. Unlike other solutions where fleas need to bite the host for results, both Advantage for cats and dogs kill fleas on contact. This prevents pets from suffering painful bites painful and conditions like Flea Allergy Dermatitis (FAD). As for hookworms and heartworms, Advantage Multi is 100% effective against them the same way advantage works against fleas.

2.Advantage for dogs and cats donâ€™t just kill fleas, it prevents them too. The solution also kills larvae and eggs. What this does is disrupt the life cycles of the bugs and stop reproduction. It also makes your pets immune to re-infestation from external hosts like other cats and dogs. Same goes for Advantage Multi too, it works as a fantastic preventive solution too.

3.All the three products are very cost effective too. I know there is no price that is too much when it comes to ensuring the safety of your beloved pets, but the benefits that come with Advantage products come with a meager price. All your pets need to be safe from those parasites is just a single application. Simply squeeze the tube and apply the solution between the shoulder blades of your pet and it will spread throughout across the skin and coat, preventing infestation for a whole month. The product is waterproof, so as long as you give your pet a soap free bath, it will stay on even if gets wet in the rain.

4.Advantage for cats and dogs is completely safe and tested. It can be used on a puppy from day one or even on lactating and pregnant pets too. It is so mild that you can use it on rabbits and ferrets too! Advantage Multi needs prescription though, since the product is more of a medical application.

Those were some of the benefits of Advantage for cats and dogs and Advantage Multi. There are more, but youâ€™d have to find those out yourself by using them on your pets yourself. Like I said, theyâ€™re easy to find, they can be bought from any online pet supplies store, so get them to protect your pets today!
