A condominium in a quiet part of the Upper East Side, often receives questions from prospective buyers about how the place is.

I lived in a little Condominium in Brooklyn since I was born, I always dreamed of living in a Luxury Condo on the Upper East Side, I always loved that place. When I was 12 years old, with my family we moved to a Harlem Condo and my dream of living on the Upper East Side slipped away. Finally when I was 20 years old, New York gave me a great opportunity, I found an excellent job, I'm earning a lot of money, and when the market was in its prime, I took the chance of buying my own luxury condo on the Upper East Side in Manhattan. I chose my Condo with all the conveniences that I ever dreamed of, my luxury Condo has three bedrooms, actually empty, but nobody knows when you will need it, I also have a jacuzzi, and a huge living room. The best part of my Luxury Condo on the Upper East Side is the front window, it's so big, and the lights of the city look beautiful at night. My condo is very relaxing, and I absolutely love it. My parents are very proud of me, because I could make my dream a reality. Honestly I always thought that having a Luxury Condo in the elite of Manhattan was something that only happened in movies, but it isn't true. I realized that you can have whatever you want just with effort and learning to search. This magical place, is now my home, and it gave me a lot of benefits, it's totally recommended. People around are very nice and I have access to the most elegant party's ever. Living like this is really a luxury. New York is definitely my place. So start searching and you too can find the condo of your dreams.
