Dish Network and Children by [David Brown](#)

Article published on November 28th 2011 | [Satellite](#)

Childhood is the time for molding a child so that he becomes a responsible and worthy citizen. This is the time to develop the intellectual capabilities of the child. This is the time to enjoy and have lots of fun. Nowadays children are not able to grow in a natural manner due to extreme urbanization. Parents also are unable to give ample time to their children because of their hectic schedules. Under such circumstances it is natural for the child to feel wretched and lonely.

Dish Network TV has arrived to rescue the children with its wide arena of programs specifically designed for children. Whether its mickey mouse or superman there is a whole treasure of children oriented programs which take them on a roller coaster ride. A spoonful of sugar makes the medicine go down and these programs provide that sugar so that there is no need for that medicine to make their life interesting and enjoyable. There is absolutely no competition when the child oriented programs are considered. These programs have travelled a considerable distance since the time of their inception. Abra Kadabra ,let the magic begin.

The experience is colorful, vibrant and the effect is simply awesome. Cartoons have always fascinated children. Nickelodeon brings hits like iCarly and Big Time Rush and the children are delighted to see them. Spongebob Squarepants and The Penguins of Madagascar are found to be extremely interesting by the little ones who like animated versions more. Dora The Explorer and Ni Hao Kai-Lan are designed for those tiny ones who seek some educational value. With the Cartoon Network coming in HD format the effect is simply out of the world. There are exclusive shows like Batman: The Brave and The Bold, and The Clone Wars simply keep the children arrest the attention of the young ones and they travel into an exciting world of super heroes and space battles.

Its not just mickey mouse and superman but there are many wild animals and spooky places waiting to be explored. Also there are lots of inventions and discoveries to excite the child's quest for learning more.

Wild animals will roar in the rooms and the effects are real when they get to see the Animal Planet with mind blowing shows like Wild Recon and Animal Cops which take them on an incredible African Safari even when they are sitting in California. Through these programs the children also get aware of the bounties of nature. Animal Planet is available with the America's Top 120 Dish Network package or a higher package.

Through the Learning Channel of Dish Network the children have access to informative shows like historical documentaries, shows related to human behavior and science. These programs provide knowledge to the students and they are also devoid of any violence. Also experts give valuable advice on varied subjects like hobbies and crafts.

There are certain programs which are not suitable for being viewed by the children. To solve this problem the option of parental lock control can be used. Those children who love music can hear good music from the extensive list of audio channels. The children can also play games offered by Tetris TV.
