The Reasons Why Car Leasing is Right for You by [Lyric Marty](#)

Article published on July 31st 2012 | [Self Help](#)

Not everyone understands what car leasing is about. If you do not have enough knowledge about car leasing then you will not be able to see its many benefits. Leasing a car is almost the same as renting it but the difference is that you get to use the car for a much longer duration. Car lease duration can span from 2 years to as long as 5 years. The duration of the lease will depend on your preference and need. If you only need the car for a short duration of time then you can just lease it for 2 years. If you need it for a longer time then you can choose a longer duration. However, you must be informed of the fact that the car warranty only lasts for 3 years so if you choose the term duration that is more than 3 years then the car will no longer have warranty. This means that if the car will need any repairs then you have to pay for it.

Car leasing is a great option because it is less stressful than buying a car. You do not have to worry about the huge amount of money you will be spending because you will not be buying the car. The cost of the lease is far cheaper than the cost of purchasing a car. This is mainly because you are only paying for the partial value of the car and not its entire market value.

There are lots of people who buy a car and then later on have regrets because they discover that the car they bought is not suitable for them. If you just lease a car then you can avoid this kind of situation. Leasing is not as permanent as buying a car. You are only bound to your car for the duration of the lease contract. Once the lease ends then you can just turn in the car to the leasing company. If you bought the car and find out that you do not like it then you are stuck with that car until you can sell it and that does not even mean that you will be able to afford a new one. If you just lease the car then you can just get yourself another car at the end of the lease. You no longer have to worry about disposing of the car or how much you will be getting from the sale.
