Keep all your makeup products and other stuff within it so that these things do not get in direct contact with your purse interior keeping it new forever. As an added advantage, you can shift all your stuff from one bag to another in one go.
- 4) Keep your bag at a safe place in the office or anywhere else. The surface of the table or desk on which you keep your purse should be even as sharp metal edges or uneven surface are all enemies of your designer handbag.
