Children love playing in cubby houses. A cubby house is basically, a small house where children can play together, for hours. Children construct it themselves. A cubby house can either be a tent, playhouse or a shed. The cubby house will come with accessories that will help children to build one and enjoy playing. The cubby houses can be made from wood or plastic that could be safe for children to play with. You can leave your children playing in the backyard or inside their room. Cardboard cubby houses can also, are found but such houses wear out, soon. A cubby house can be best for children as it can help them in improving their creative skills. In this way, they are able to pass their free time easily. You can find these houses in different shapes and sizes.

Apart from, the cubby house itself, Cubbies can also be found these days. They are same as the big cubby houses but a little smaller in size. While playing in Cubbies, children learn to keep their houses clean and they also, take up good habits. A cubby can be really, useful for children, in many ways. These houses can help in making them, responsible. When children will play in these houses, their attention will be diverted, from playing games on the internet and watching TV, all the time. Because of this thing, many of the parents have started to buy cubby houses, for their kids. Among many of the cubbies, the most preferred ones are those that are made from wood. Some of the designs that are available in cubby houses have been discussed below:

â€¢ The holiday home cubby houses can be good for children, as they are spacious enough to enable children play, easily. A barn door is provided with this cubby house. It has an option, to keep the door open or closed, or even half open. Other things that are included in the accessories of the cubbies include windows, chalkboards, internal furniture, planter boxes and guttering system. Windows are only, installed in the front of the house.

â€¢ Another type, can be the town house having similar features, as that of the holiday home, but is shorter in length.

â€¢ The patio cubby house is another type, having a flat iron roof and a verandah, which covers the total deck area.

â€¢ The getaway cubby house is the smaller version of the patio type play home.

When it comes to designs, then the cubby houses are available in trendy, as well, as traditional designs. The house can either be double storey or single storey. The one, who is building a cubby, needs to have great imaginative skills. There are many things available, today that can make cubby houses attractive and more loving. Involving your children in the formation of the cubby house will be creative. Children also, love to play in a tree house. This is also, another type of cubby house, where they can spend most of their time, enjoying.
