Article published on April 2nd 2012 | [Shopping](#)

Anchor Flag, INC, are known for their best quality manufactured by the leading companies. They ensure that the customers get the value for money and get the best quality products. As per their requirements, customers can choose from the wide range of the Company offers. The flagpoles are segregated under different criterions namely Trio's, Commercial Sentry, Commercial Independence, Sovereignty, Outrigger Commercial, Budget Aluminum Poles, Franklin Series Roof, Residential Home Kits, Residential Home Porch Mounts, Hurricane Series, Outrigger Economy, Outrigger Franklin, Outrigger Homesteader, Commercial Series, Vertical Wall Mount, Vertical Franklin Series, Fiberglass Series, Nautical Aluminum Flagpole, Telescoping, 3 Best Kits Available, Garden Flag, and RV.

Anchor Flag, INC., offers a 'Trio's 3 matched poles'™ which is a combination of three flagpoles. The Trio poles are available in various Max wind rating ranging between 94 MPH to 154 MPH. Under the Commercial Series Flagpole section, customers can look for the product of their choice by checking the installed height, butt diameter, top diameter, max wind unflagged, standard flag size and the price. If the customers do not get the specific requirement, they can send a request for a customized order.

Fiberglass Flagpole is very popular with the customers as they do not pit, corrode or rust. Installation of this type of the ideal for areas with extreme harsh weather. The Nautical are most appropriate for areas close to water like ocean front, lake front, or properties along rivers and streams. It is widely used by Seafood restaurants or in personal homes and properties where people want to add Nautical theme. The nautical are available in a "Home Kit" version, which is a light duty kit and the prices are really affordable and attractive.

The Residential Aluminum are ordered by small business units or residential complexes. The Estate are manufactured from high quality materials, and the same standards are followed, as for the other flagpole. The stand foundation sleeve for the Estate Aluminium is made from PVC.

If the customers have any query related to freight charges or any other questions, one can drop in a mail. For all types of the contact Anchor Flag, INC., as they offer the best. It comes with standard fittings like finial ball; single halyard truck; polypropylene halyard; and more. Along with these one would get a PVC ground set foundation sleeve and a detailed installation instructions guide book. Optional fittings are available. The Estate are beautifully polished to an attractive texture.

The Sovereignty of Anchor Flag, INC., are made from high quality products. The Sovereignty is better than the Sentry line of flagpole, as they have a winch and stainless steel cable instead of the rope system that is available in the Sentry poles. These flagpoles are less costly than the Independence, as the winch is mounted. The Sovereignty poles have external door frame instead of the welded in door frame of the Independence poles. The objective of Anchor Flag, INC., is to sell the best products like flags and other accessories at the best prices.
