I uploaded my video from my Macbook on iMovie HD directly, but it couldn't convert it on Kindle Fire. I then converted it with some free software, Full Quality, but it's taking tooo long. I did Web streaming and web, but the quality is awful. How do I make the quality better? How do I export iMovie HD videos to be added to Kindle Fire?

As we know, iMovie is a proprietary video editing software application which allows Mac, iPod Touch 4th generation, iPhone 4, iPhone 4S, and iPad 2 users to edit their own home movies. From there, the user can edit the video clips, add titles, and add music. Effects include basic color correction and video enhancement tools, and transitions such as fade-in, fade-out, and slides. Wanna to export any iMovie videos to Kindle Fire, While Kindle Fire only supports video files like HD MP4/H.264 videos. If you want to playback iMovie videos on Kindle Fire freely, you may need one software to convert iMovie videos to HD MP4/H.264 etc for playback videos on Kindle Fire perfectly.
