Fill in the Forms Easily with HCFA 1500 Software by [James Blee](#)

Article published on May 16th 2012 | [Software](#)

Increased work load or work pressure in office or at home makes it difficult to fill a normal claim form. It is time consuming and moreover calls for additional references. The hcfa 1500 software eliminates this entire problem and allows you to tab through the form's fields on your screen easily and conveniently. Filling up the boxes is quite easy by typing and selecting the aspects from drop down menus and this in turn saves your valuable time. The completed form data can be saved in your hard disk or it can also be printed on to a blank HCFA claim form for insurance submission.

It can be networked on your network without the assistance of any server. All you need is a shared drive and you can easily fill up this form. This software allows you to enter innumerable claims without paying any additional cost. It includes several features such as printing receipts, complaint documentations, making labels and tracking accounts receivable and many more. You can get started with the software right away after purchasing it. You can purchase it online; the secure shopping cart will guide you through the entire process of activating it. You will receive a code which will activate this software anytime of the day or night.

This software has a feature of live update which keeps you well informed about the updated forms and the latest amendments or revisions. Option to submit the claim forms electronically to your clearing house reduces the hassle of mailing it. You can submit cleaner claims within time and hence seek faster payments. It also reduces the costs involved in processing paperwork and unintentional erroneous claims. Batch printing and batch e-filing are also provided in this software; this helps you to print or electronically file multiple claims at a time.

It is easy to use software and the information you type on the screen would appear exactly on the form itself. You can save and load the claims anywhere on your hard disk drive or network drive or to external disk drives for quick retrieval. A feature like creating templates for faster completion without any typing errors is another prominent feature of this software. Hence, it is advisable to use the trial version of this software and see the difference yourself.
