How to get into computer if you forgot Windows 7 password? by [Sarina.Lee](#)

Forgot Windows 7 password? Donâ€™t worry! All you to do is to reset the forgotten Windows 7 password by using either a password reset disk or another admin account. Then, what if you forgot Windows 7 password without a password reset disk and you cannot log into the computer as administrator? If you come across such a similar problem, you can turn to Windows Password Unlocker Enterprise, the most popular Windows password reset application at present.

Whatâ€™re the benefits of Windows Password Unlocker Enterprise?

Of the numerous Windows password reset apps out there, I strongly suggest Windows Password Unlcoker Enterprise. Through this Windows password reset tool, youâ€™ll have 3 options to get into your Windows 7 computer again after forgetting its login 7 passwords:

1. Remove Windows 7 admin and other user passwords

2. Change Windows 7 admin and other user passwords

3. Create a new admin account to access your PC again

By adopting read-only and non-destructive designs, Windows Password Unlocker Enterprise guarantees 100% security. No any loss or damage to your computer after resetting the password. Its success rate can reach nearly 100%. For any problem, you can resort to the customer support and get an effective solution.

Please note this Windows password reset tool can not only reset Windows 7 password, but also reset login password for Windows Vista/XP/2000 and Windows server 2008(R2)/2003(R2).

How to reset Windows 7 password with Windows Password Unlocker Enterprise?

Windows Password Unlocker allows you to do Windows 7 password reset in minutes, no matter how long and complicated the password is. A USB flash drive or CD/DVD is required to be prepared before getting started. And if you cannot access your own Windows 7 computer, you need to find a computer for app download and installation at first.

When the things are ready, you can rest Windows 7 password by using following steps:

1. Download and install Windows Password Unlocker Enterprise in any computer.

2. Burn a bootable password reset disk with a CD/DVD or USB device in seconds.

3. Boot the computer that you want to reset Windows 7 password of from the burned disk.

4. Reset the lost Windows 7 password with a few clicks.

What if I want to recover lost Windows 7 password rather than resetting it?

Windows Password Unlocker Enterprise can only reset your forgotten Windows password. If you prefer to retrieve the forgotten Windows 7 password rather than resetting it to blank or a new one, here are 2 Windows 7 password recovery tools for your reference.

1. Ophcrack â€" Ophcrack is a free Windows password cracker based on rainbow tables. It is a very efficient implementation of rainbow tables done by the inventors of the method. It comes with a Graphical User Interface and runs on multiple platforms.

2. Cain & Abel - Cain & Abel is a password recovery tool for Microsoft Operating Systems. It allows easy recovery of various kind of passwords by sniffing the network, cracking encrypted passwords using Dictionary, Brute-Force and Cryptanalysis attacks, recording VoIP conversations, decoding scrambled passwords, recovering wireless network keys, revealing password boxes, uncovering cached passwords and analyzing routing protocols.
