HP Envy 15 (winter 2012) by [Theodore Sumrall](#)

Article published on April 30th 2012 | [Software](#)

HP Envy 15 is an updated version, which offers a premium design and performances at a decent price. The laptop comes with extra features such a physical volume controller and backlit keyboard. Although, updated version of HP's Envy 15 include bigger touch pad and multi gesture, along with backlit keyboard, but still somehow HP Envy 15 look similar to MacBook Air. This could affect or disappoint the buyers of the laptop.

The Envy Series of HP's laptops have always been reliable high ending laptops and this redesigned Envy 15 with additional new features could impress the buyers.

HP Envy Series is one among the few consistence high ending Windows laptops, which has impressed its customers with sharp design and high ending components and reliability. The HP Envy 15 is powered by Intel Core i5-2430M processor, along with the RAM memory of 6GB. It offers a huge storage capacity of 500 GB HDD. Its graphics is supported by AMD Radeon 7690M GPU.

The Envy Series laptop starts at \$1,099, which comes with above installed configurations. For better processor like i7 and bigger solid state hard drive, one would have to pay more prices considerably. The upgraded HP's Envy 15 come with the additional features and upgrades, however these features are still less than the features offered by 15 inches MacBook Pro.

The introduction of physical volume controller in Envy 15 is in impressive effort made by HP. Dell XPS 15z, a 15 inch laptop, which is bit thinner and less expensive than HP Envy 15. However, it lacks a big touch pad and a Beats Audio features which are present in HP Envy 15. The black side of HP Envy 15 is the lack of glass design, which will be introduced in HP's new Envy Spectre. Envy Spectre will be a 14 inches laptop. It has already beaten Envy 15 in terms of looks, before hitting the markets. remove trojan horse

HP Envy 15 laptops prices start from \$1,249 and \$1,099. The laptop is powered by Intel Core i5-2430M processor, which operates with the speed of 2.4GHz. It comes with installed DDR3 RAM with the memory of 6 GB that runs at 1,333MHz. The laptop offers enough space for storing digital data, with the SSD hard drive of 500GB. Video is supported by AMD Radeon HD 7690M/Intel HD 3000. The laptop has video screen size of 15.6 inches diagonally, which offers the native resolutions of 1920x1080 pixels. It includes 2 USB 2.0 and 2 USB 3.0 ports, along with SD card reader for fast transfer of data.
