MXF Video Converter - How to convert mxf file with simple MXF File Converter by [ILifeSoft](#)

Article published on April 6th 2012 | [Software](#)

Currently, MXF is fairly effective at the interchange of D10 (IMX) material, mainly because of the success of the Sony eVTR and Sony's eVTR RDD to SMPTE. Workflows combining the eVTR, Avid NLE systems, and broadcast servers using MXF in coordination with AAF are now possible.

But there are also many problems about MXF file, many devices can't support this format file. So we need MXF Converter to convert mxf file to other format, then import MXF file conversion which the video format is supported by devices.

With AVCHD Video Converter, we can convert mxf file to friendly video formats just like avi, mpg, wmv, mp4, mov, flv, asf, rm so that you can easily work on them. We also can use the MXF File Converter to convert mxf file to iPod/iPhone/iTunes/PSP/Apple TV so that we can watch our favorite mxf conversion file everywhere. It is just a simple and powerful MXF File Converter.

Step 1: Add mxf video files

Free download, install and run AVCHD Video Converter, then click "Add File" button to select your desired format that need to be converted from the "file type" list in the pop-up window.

Step 2: Choose output format

Choose the file, click "Profile" drop-down button to choose the format you need, then click "Browse" button to choose destination folder for saving output files.

Tip:

Trim: You will be able to select a certain length of video/audio in the clip to convert, so that you can get whatever part you want and won't be limited to convert the whole clip.

Crop: If you find the black sides and subtitle in the frame annoying, you can remove them using Crop.

Effect: You can set Brightness, Contrast and Saturation to tune the rendering effect. Or you can go to Special effect to choose Old Film, Horizontal, vertical, etc. simple fun and interesting.

Step 3: Convert

When you get ready to convert the added mxf videos, Click the "Convert" button to start conversion and then you can just go out for a walk or take a nap, and the conversion may have been finished when you come back.
