Pc gamesâ€™™ software developed for gamers by BlueStacks [Maria Gini](#)

Article published on April 21st 2012 | [Software](#)

Pc games are very much popular for the reason that many games are available online. Games can be played online without purchasing them and some interesting games can be downloaded if one is interested to do so. For this sole reason, BlueStacks, a software developing company has being developing softwares for gamers so that they can always play their favorite games online or download and play on their pc.

Games like those that Alchemy which were android games has been brought to the world of pc for the convenience of the people interested. Yes now Alchemy on pc is available for those who have no android phones. Now they can even enjoy the game and that to on a larger screen.

They have even made Shazam for pc available for their users. The whole experience is renewed with the excitement of the big screen entertainment. Even some android phone users like to play Alchemy on pc and many try to get Shazam for pc so that when they are at home, they can enjoy their games on a screen with clarity.

BlueStacks with their advanced thought has made this possible by working day in and day out on developing softwares for games, famous games that are in demand and many wish to play it on their pc instead of on their handsets. The whole experience has been refreshed by BlueStacks as they have worked hard to give a good resolution of the games like Alchemy and Shazam as these are full time entertainment games and one can never get over it completely. BlueStacks is working on getting more puzzling games like Alchemy for their users and other android applications which can fill the users with excitement about the new pc applications available now which were earlier available only on android handsets. Thus they bring for their users a huge range of games like Shazam, Alchemy, Angry Birds, Doodle Jump, Cut the Rope and many more which has made the users ask for more and more with the gaining popularity of BlueStacks. Gaming is now all fun and large with a company like BlueStacks working on it.
