Article published on February 27th 2012 | [Software](#)

"I just want to put a movie on my iPod touch- its 32 gb and I hav plenty of memory available cuz I just got it. Can I take a DVD and convert it to my personal computer? I've a mac desktop nonetheless I likewise hav my brothers hp laptop with iTunes. If I can, can anybody include suggestions for how to achieve that? Or should I simply just get a movie off of iTunes... I'd really prefer a DVD, cuz im cheap like that. Thanks!! "
