Amaze yourself with the latest iphone application by [Makayasaul](#)

Article published on July 16th 2012 | [Technology](#)

An iphone has taken its new step to a new level with the great invention of amazing apps. Combining features like video camera, GPS, and the new addition of its digital compass to create a way to view nearby things.

Everyday you will find market with new and latest inventions. People get amazed with all these latest versions. Let's talk about the latest news tab that keeps you in the know all about associated events and parties. With the help of expert iphone app developer we are now in the technological era where our imaginations turned into a real phase.

So if you want to do a bit of exploring then go for a slick application. Tiger Beer, an Augmented Reality based iphone app that incorporates a rather lovely tool to find out nearest pints where tiger beer can be served. A great exposure to previews compiled by dazed and confused magazine. This is being released to promote the chinese year of the Tiger. Simply hold the phone up and follow its lead.

Featured with GPS-enabled venue finder, allow users to get an on screen directions to establishments serving Tiger Beer in big cities. Gives you cost so that you can figure out which one is the cheapest and reviews about bars and restaurants so that you'll know which is the best. It has an AR view in which you need to hold the device up and you can find results in the camera view or see them in a map. AR is augmented reality which allows you to chat with unknown audience attending any event or meeting. If you are interested in knowing any person then you can simply track that person and his complete details and can chat with them. Find what all important events are going to be held in coming days and attend that event for more exposure.

There's even a mini game Tuk Tuk bundled on in which is incidentally not an augmented reality game but is kind of fun nether the less. This game asks you to complete the missions given and avoid the traffic while reaching to your destinations. There are many other apps which will amaze you and your needs. With the great advent in technology you can now make your dream come true.

So if you want to do a bit of exploring then go for a slick application. Hit play to see the brief preview.
