Details about Club Car Parts by [James Blee](#)

Article published on April 19th 2012 | [Technology](#)

What is Club Car?

Club Car is the maker of a wide range of gasoline and electric powered small vehicles that are used to move people, equipment and materials more efficiently and cost effectively. It is the market leaders of golf cars and utility vehicles. They also manufacture these for commercial, industrial and recreational purposes.

Club Car Parts:

Club car parts have a number of authorized dealers through which they are distributed and brought to markets.. The carts they make are a result of years of research and innovation. The vehicles are a sum of their quality parts and are a very wise investment. The best way to maintain them and maximize their value is through their Genuine Parts, Accessories and Service. This is because all their parts are crafted to precision according to their strict specifications. They are the same as the original components found in the vehicle. Some of their parts are listed below-

â€¢ Accelerator items like switch, pedal pad, non- slip pedal pad, cable pivot rod.

â€¢ Axles and differential parts like driverâ€™s side axle, passenger side axle, rear side axle, axle clips axle bushings.

â€¢ Battery chargers and parts like 36 volt chargers, 48 volt chargers, 48 volt power drive chargers, charger plugs, D.C. cord set, A. C. cord set, Fuse assembly, Fuse holder, screw type fuse, Receptacle fuse assembly, Timer control cables, Timer assembly with and without lights, Clockwise manual timer, manual timer with knob,

â€¢ Battery parts and maintenance like 36 volt battery cable set, 48 volt battery cable set, 4 gauge battery cable, wire assembly, battery hold down, battery cable bolt.

â€¢ Car Belts like drive belts, premium drive belts, standard drive belt, starter generator belt.

Besides these there is a whole list of parts available with their dealers and distributors who can be contacted through website.
