What are the benefits of Technology IT blog ? by [IT BLog](#)

Article published on June 27th 2012 | [Technology](#)

People most often ask me this question that what is the advantage of IT or Technology blog? Well, let me cite here briefly what are actually these blogs and what are the advantage of Technology or IT blogs?

Well, let me share something interesting before we go to our main topic, well let me ask a simple question to my readers, and that is how does it seems to you if you can really feel, the love via an application. So lets say where can you find the details, about it as it is something relatively new, actually you can feel the love as if you are really a part of that thing, It seems interesting but the question is what on earth would have Technology blog or it blog has to do with, this application.

Yes, the question is quite valid, but the thing is if you want to find more about it, you can visit any it blog, or technology blog, But it is not as simple because many it technology blog has nothing to do with, these type of application actually it or technology blog has variety of things to share and does has variety of aspects.

So you have to find your own interest first and then you can search relevant blogs related to your taste, but let me tell you something that I found this, application on a blog that is providing continuous updates about new IT gadgets and application the name of the blog is shebytes.com if you are keen to know about the new technology applications, you can find lot of stuff that is not interesting to read but has variety of other things that my be of interest to you.

Let me come back to my point now, and that is what is the advantage of technology it blog? Well as I have cited an example above, you are getting variety of info and updates about the latest happening in the IT Technology world which can not only be of interest to you but can make you life much easier.

This is why Technology IT blog are more famous and have become the point of interest. Infact this is one of the hot niche that one may think of, actually there is another important advantage and that is readers are getting hand on the latest happenings and sharing in the Technology IT world, while the blog owners can take benefits from those blog as an affiliate marketing, and this is the fact that most of the bloggers are taking from these kind of blogs, So ultimately we can say that both the reader and the user are at win win situation.
