Everyone has their own style of traveling. Some folks can get by with a simple suitcase containing the key essentials, while others won't leave without the kitchen sink in tow. Thankfully, Luggage Direct's online luggage store has a range of bags to suits everyone's needs. Whether you are looking for large or small travel bags, here are useful tips that can help you find the most functional luggage for your travel needs.

A large travel bag might cause headaches if you are taking a long trip. This is particularly true when the mode of transport can only accommodate a small backpack or suitcase. There is nothing as painful as struggling to cram yourself and your luggage through a turnstile in a crowded tube station, especially during rush hour! But it is not only long trips that can cause huge hassles. Any trip where you have to move around a lot will cause problems if you have to drag heavy luggage around with you. Imagine how tiring it would be trying to fit a hard suitcase into the boot of a small car, or walking with your large, heavy bag behind you the entire way.

So, how do you prepare for a long trip? What kind of travel bags can you manoeuvre from one point to the next? Here are a few tricks that you can employ to ensure that nothing is left behind during your trip.

## Useful luggage purchase tips

1. Get wheeled luggage: No matter the size of travel bag you are shopping for, it is important that you get something with sturdy wheels. Get a bag that will turn easily without breaking down. Wheels will help you move a heavy bag around with ease.
2. Get expandable luggage: Most top travel bags come with collapsible compartments which allow you to pack light when you are leaving, but return with all the extra stuff purchased on your trip. This is crucial if you are going to do some shopping while you're away.
3. Get multifunctional luggage: There are various luggage designs that come with a shoulder strap, wheels and a handle, as well as hidden straps that you can use to convert the bag into a backpack. This luggage design is invaluable as it is very comfortable to carry around.

Just because you enjoy comfortable traveling does not mean that you should carry an enormous suitcase with you everywhere you go. Take your time to browse through online stores, such as Luggage Direct ([www.luggagedirect.com.au](http://www.luggagedirect.com.au)), and enjoy effortless travel.
