There are lots of cheap hotels in Rome, which not only give the comfort to the tourist but also save their lots of money. These hotels are very economical but offer the facilities just like the five stars hotels.

One can choose these hotels without any second thought, because these hotels also provide the facilities like:

â€¢ Rich buffet for breakfast

â€¢ Swimming pool , Solarium and a children's playground

â€¢ Elegant , refined and innovative restaurant

â€¢ Bar with panoramic terrace

There are some policies, terms and conditions applied with each room of the hotels. There is some fixed amount for the room of the hotel which includes single person or two people depending on the need. But if there are more than two to three persons then there is some extra charge for each extra person in the room.

With some nominal charges, the facilities like extra bed, extra towels, extra soaps, etc can be avail. When one checks in, in the hotel one has to produce the Government-issued photo identification and a credit card or cash deposit. If one wants to make some special facilities avail other than the prescribed one then one can easily avail them with the extra charge which not a very huge one. If one carries their pet with them, there is separate arrangement for the pets in the hotel. But most of the hotels in Rome allow only the small pets.
