Explore Africa with Kruger park safaris by [Stan Scotto](#)

Article published on May 10th 2012 | [Travel](#)

Anyone who goes on a Kruger Park Tour has an experience that stays with them for long. Everything about Kruger park is simply incredible and great deals are also offered to make this tour special for you. First of all you will stay in the South African Lowveld and therefore you will get the taste of an environment you have only been hearing of all along. While you are on the safari you will stay in a camp located in Nelspruit, the capital of Mpumalanga in the midst of wilderness and this is where you will get the true feel of nature real close.

The Kruger Park Safaris are meant for all. It matters little if you are one of the backpackers or you are visiting with your entire family. You could be a student or a hiker or camper or even a single traveler. This safari is for South African sport groups too. On the safari there is a good chance for you to see the Big Five but what is also important is that you will also get a good taste of the South African hospitality. You will also be able to get the raw feel of the great country of South Africa.

There are several kinds of tours in the Kruger Park. You can take your pick of these tours depending on your budget and the time at your disposal among other reasons. You can go on the Leopard Crawl Tour that is spread over two days and one night. It will take you to Kruger/Blyde Canyon and you will leave early in the morning so that you can reach Kruger in time to be able to see the Big Five besides the 140 other mammals that also belong to the area. When you travel inside Kruger national park your game spotting period will be followed by lunch at a picnic spot inside the park. You will have another spotting session and then take some rest in the Lower Sabie Camp, the best of Kruger. In the evening there will be three more hours of game spotting and drive after which there will be South African braai under the African skies. The second day will find you in the Small Drakenberg mountain range, Lisbon Falls, Bourke's Luck Potholes and the world's largest the Blyde Canyon. You can also opt for either the Elephant Trumpets Tour spread over three days and two nights or the Lion King Tour that is also spread over the same period but is more special.
