Online Taxi Booking Services in UK by [Jocasta Marvin](#)

Article published on July 5th 2012 | [Travel](#)

Ground transportation has always been a vital requirement of every person around the world. People hire different types of transportation for traveling from one part of the world to another. Traveling may be for the sake of business & trade or for personal reasons. Going back in the history of ground transportation, it all began with riding animals and today in the modern era, it has reached cabs and limousines. This process of advancement is still on and will continue to progress. In this process of advancement in technology and modes of transportation, the travel and transportation business has also been integrated with information technology. The use of internet is no longer limited to looking for cab companies by visiting their websites to know about their services and rates but it has also been integrated with booking and dispatching of cabs today. United Kingdom being one of the most modern states of the world, houses a large number of highly advanced and up to date transportation companies that offer taxi hire services via internet.
