Northern Light Holiday : when and Where by [Julia Roger](#)

Article published on July 20th 2012 | [Travel Tips](#)

People having a flair for great lighting and illumination are die-hard fans of northern lights holidays. For them, it is most awe-inspiring thing to be a part of the grand starry scene. Coming to when to go, this will largely depend on your choice of a particular country. September to March is the time for great viewing. Where to go is a personal choice, though there are some favourite destinations such as Scandinavia and Sweden.

There are a number of countries, which make a great northern lights holiday. There are few specific cities or towns in these countries from where seeing northern lights is a delight. Each type of holiday trip in this regard has its own merits and demerits. Weighing down the pros and cons is a better move before you decide one particular country. For instance, some countries might match your lifestyle while others may give you scope of partying relaxing, etc.

Affordability is another aspect that plays a role in deciding which country to opt for your northern lights holidays. The good news is “ there are a number of options to choose from according to your budgets and preferences. Some countries host these holidays and they would not be far off from your country of residence.

Availability of many resources around makes planning such a holiday less tedious. Your selection for a particular service provider must take into account kind of excitement and comfort a particular package offers. Experienced travel advisors employed by the service provider are the best professionals who can answer all your queries.

Tourists and holidaymakers near the ocean prefer having northern lights cruises. Going for such a cruise allows you to relax, sit back and enjoy your trips. People who do not fancy a cruise option choose to view it in a city. Taking the snowmobiles and the dog sledding trips in snowy destination is a wise move.
