Are You Aware of Weight Loss Surgery in Delhi? by [Mike Nicholson](#)

Article published on May 24th 2012 | [Weight Loss](#)

Are you worried about your weight? You aren't able to wear the dress you love to wear? Pissed of your life Or feel jealous whenever you come across slim women. Are these the questions that are revolving round your mind time and again and you aren't able to get out of it. Whether you were tired of visiting different clinics to get solution of this problem or are still browsing through net to get the best bariatric surgeon so that you could lose a kilo of mass out from your body. Don't worry there is good news for you all residing in India. Specially, its a matter of happiness for those people who reside in the capital New Delhi.

Do you know that weight loss surgery in Delhi is being carried out by the best bariatric surgeon of New Delhi, India. Dr Atul.N.C.Peters is the leading surgeon of Primus hospital who will help you in losing excessive body weight of yours and soon with his help you will be able to see yourself in your most favourite dress. He has been instrumental in making the department of Minimal Access & Bariatric Surgery in various reputed organizations and has the highest number of international patients for Bariatrics. If international patients can come to have surgery under the supervision of this doctor then guys consider yourself lucky.

Those who reside in India or those who specifically reside in New Delhi are on the best side. You don't have to spend much bucks at least like other international patients to get to this hospital, isn't it? Don't worry about the complications friends! Be assured, as my uncle too had undergone surgery under the supervision of this doctor. I can say you with confidence that this obesity weight loss surgery is the best surgery done without any complications by not only the best doctor in New Delhi but is done by the world's best doctor. And don't worry about the cost, its not to much expensive. This bariatric surgery cost in India though varies according to different hospitals.

As, I have already told you that my uncle had too undergone this weight loss surgery under the supervision of this best doctor. Thus, you don't need to worry about cost that you have to pay. Its much less than other hospital. And yes! When it comes for your health and when you want to look at your best, then cost should not come in between, isn't it? Health is wealth, right? Do not let cost interrupt your dreams.
