Affordable Laser Printer Toners Now Available Through UniLink Inc by 1300golimo

Article published on December 8th 2011 | [Business](#)

One of the keys to running a successful business is consolidating cost in every area. In that respect, printing consumable such as toner and ink can often set organization back on the balance sheet. That's why many companies are now searching for low cost consumables that won't have the company bleeding red ink on the bottom line. Fortunately for today's financial services organizations, UniLink Inc. is there to provide a wide selection of laser printer toners at exceptionally low prices, in order to help their clients compete against others in their industry on a national and international level.

UniLink Inc. is widely known for their ability to source leading class solutions to their client's most pressing business problems. The company have been in business since 1988, and in that time they have established business relationships with some of the leading electrical equipment manufacturers such as Epson, Burroughs, Fujitsu, Canon, and many more. That's why their customers trust them implicitly – they know that the right solution can be found through the UniLink Inc. catalogue. From low cost laser printer toners to the latest financial printing equipment, the ideal solution can be found through UniLink Inc.

In terms of financial printing solutions that organizations can rely upon to reduce operational costs while increasing customer satisfaction through faster transaction speeds, UniLink is the clear leader. Clients reviewing the UniLink catalogue may wish to take a look at the benefits of the Epson TM-U375 Multifunction Printer. The TM-U375 is a compact, multifunctional machine that offers 40 column/journal printing. up to 15 lines check/charge validation printing and unlimited lines of slip printing.

Within contemporary business environments in which there is a lot of equipment to fit within a relatively small office area, it's imperative for decision-makers to source products that have a small footprint. This is where the Epson TM-U375 truly stands out. It has a wide array of optimized features and a footprint of just 186*327mm. It's actually one of the smallest 1.5 station printers available on the modern market!

The TM-U375 is built to print a wide variety of financial materials such as receipts, slips and journals. And it's also one of the leading validation printers on the market. In terms of compatibility with the latest industry products, the TM-U375 puts organizations in the ideal position to take advantage of future iterations, as the product features scalable technology which allows for easy upgradeability for when companies may want to expand upon their current technological capabilities.

Over the years, many customers have contacted UniLink Inc. expressing their requirement for low cost solutions to their current business problems. Always willing to meet their customers' needs with highly supportive services, the company introduced a refurbished equipment line to their catalogue. Within this line, the company offers financial printers, check scanners, encoders and more – all in like new condition and replete with a manufacturers' warranty. This warranty means that you don't have to worry about the machine breaking down over time. You can achieve a low cost solution that keeps you ahead of the competition at 75% of the cost of the new models. That's an example of the tremendous benefits received, simply by working with UniLink Inc.
