Article published on December 23rd 2011 | Business

The words made in China have become increasingly more common, in fact, for virtually every business these days, they are the only way to remain competitive. Manufacturing in China is vastly cheaper than it is almost anywhere else in the world. The productive capacity of the country is absolutely astounding. There are over ten millions item produced every minute in China, from underwear through to train carriages, from toys through to weapons, from plates through to dishwashers, pretty everything and anything is made in this massive country. If you want to stay competitive, if you want to make more money, then you need to look at manufacturing in China. It is as simple as that.

However, the problem is that if you donâ€™t have the right contacts, if you donâ€™t know who to go to, th you could get yourself in trouble. China is not like the West, they donâ€™t follow the same rules, and there is far less protection available. There are numerous horror stories, where a company has been completely done over. Contracts are different in China, and there is far less respect for your IP than in other countries. It is not unusual for a company to discover that there designs have been taken and the manufacturer has simply cut them out on the deal.

That is why you need China Advantage Apparel Services. China Advantage can connect you with reputable manufacturers.
