Doing Secure Mobile shopping in Kolkata by Suhana Tichkule

Article published on December 29th 2011 | Clothing

Kolkata, the city of culture and ethics has now seen a major change in the way people go about their shopping. These days a lot of people depend on Mobile shopping in Kolkata, which has also helped the online stores mint a lot of profits. If you have never indulged in Mobile shopping in Kolkata, here are some tip for you to keep your experience, secure:

1. Always go ahead and only buy from a seller who has a mobile compliant website. Also the mobile site has to be secure enough and should enjoy a good reputation. The one way to check the reputation is to look for positive testimonials and feedback on the website and other related places like various social networking websites. Also you should check out how secure the process of encrypted payment is on a mobile phone. Also consider reading about the delivery process and also check out the after sales service.

2. You should always use a low limit credit card, while mobile shopping. This helps to make sure that your limited amount of money is at risk, even if you are buying from an unsecure mobile site. However, it is important that you make sure that in case of any strange activity you should report it immediately to the credit card company.

3. Also you should consider buying using a service like PayPal. Such a service is very secure and keeps the payment, absolutely safe. Because of the reputation being at stake, PayPal and similar services help to make sure that the money does not reach any wrong hands. These services are mobile friendly, so can be very helpful in mobile shopping.

4. When asked to sue a password, chose an option which is not very easy to crack. The ideal passwords are those that have a mix of all cases of letters and a special symbol or a number.

6. It is advisable that you sign up as a verified user with any of the credit card company that has issued you a card. This will offer you a special extra level of security. Also use your CVV number; it is a form of extra security.

7. Never shop on a website that looks and seems fishy. Such websites are phishing scams designed to steal your financial information and your account password.

Simply, follow the above mentioned tips. This will help you with secure mobile shopping in Kolkata.
