India, an ultimate destination for Plastic Surgery

Till late nineties, people from India used to travel to USA and UK to avail different types of plastic surgery procedures. But over the years, the booming Indian medical tourism industry has developed a major shift. Now people from all across the globe are flocking India, majorly for treatments such as infertility, plastic surgery, dentistry, surrogacy etc. Off all these treatments, India is attracting a major chunk of people for plastic surgery.

What is Plastic Surgery?

The word Plastic comes from a Greek word â€œplastikosâ€• suggesting molding or giving shape and form to something. Plastic surgery is comprehensive, intended at the improvisation of the functions as well as look and form of almost any site on the body.

Plastic Surgery Verticals

Plastic Surgery comprises of cosmetic and reconstructive procedures.

Cosmetic Surgery is performed to enhance the aesthetic appearance of a person and it is usually sans any trauma. It includes a range of procedures for hair care, skin care, body contouring etc. Some of these are Laser, Chemical Peeling, Derma Fillers, Botox and Hair Transplantation etc. These are generally the anti ageing methodologies.

Alternatively, Reconstructive Surgery attends to the refurbishment of the function of an organ and at the same time, also works on the distorted look which could have resulted from an infection, trauma, tumors, congenital defects, developmental abnormalities etc. Various procedures are Breast Reduction/Augmentation, Facial Surgeries, Hand and Feet Surgeries, Weight Loss Surgery etc.

PLASTIC SURGERY IN INDIA

The medical tourism industry in India is growing at a rapid pace. The advantages of traveling to India for Plastic Surgery are uncountable. Visiting India for a medical procedure offers a superior quality medical care at a very economical price. There is absolutely no long waiting ques. The total cost including return airfare, accommodation, procedure costs, travel trip etc. leaves them with a considerably low bill.

India is the preferred destination for a cost-effective medical treatment since its private as well as government hospitals have earned their standing as exceptional institutions with high-tech expertise and exceedingly skilled and experienced medical workforce.

Many hospitals are gaining ISO9001 standardization status and the Indian government is also setting up minimum quality standards to reassure patients seeking treatment here that they are in the safe hands.

Indian Tourism

Post a surgical procedure, a patient has a benefit of exploring the exquisite locales of India. It is a land of rich culture, mouth watering cuisines and awe inspiring scenic beauties. The medical tourism

companies ensure that the patient is well attended to at every single step. The travel packages, hotel stay, interpreters, mobile facility, travel tickets and the rest are well managed.

Therefore, traveling to India for a plastic surgery procedure will ensure not only the correction of a body part, it will also renew the spirits of a patient, leaving him feeling calm and rejuvenated, for long.
