Enhanced Radio Set for Effective Communication by [Julia Roger](#)

Article published on July 6th 2012 | [Communication](#)

There are people who work in coordination with other colleagues all the time and their decisions rest on that communication. Such communication requirements are a common thing in critical businesses and other professional organizations where people are always on the move and cannot plan meetings at regular intervals during the day. For such professionals Motorola xpr6350 is the perfect gadget. This gadget is a portable radio which allows two-way communications and is very appropriate for professionals involved in critical positions in business and industries.

Xpr6350 is a digital radio set which has various high end features giving it an edge. This set has a very high calling capacity in comparison to other radio sets and even the voice is relatively much clearer. This gadget has been improved and enhanced by the company providing it with a better battery life and a great option of migrating from analog to digital very easily. This Motorola radio set model also offers GPS system with location tracking Services. The programmable button provided on the set enables you to send text messages very quickly and there are three programmable side buttons present on the set.

The Xpr6350 radio set has approx 32 radio channels and possess the feature of switchable channel Spacing. It also allows the user to scan the analog and digital Channels. With the battery life of 13 hours and a standard warranty of 2 years, it is considered to be a heavy duty gadget. Motorola xpr6350 is also equipped with integrated data communication and can be used for contacting regular land lines and mobile phones also. It comes with an emergency button on the side and has bright sensors. This gadget is worth \$757.20 but price can differ slightly from retailer to retailer. All in all it is a very effective product made by combining few of the best radio set features.
