Cutting Edge Software Solutions of OpenPro Make Companies Competitive by
1300golimo

Article published on February 9th 2012 | [Computer](#)

Companies can become more competitive in a technologically oriented world with Open Pro's cutting edge software solutions. OpenPro's business software are conceived to incorporate the latest innovations in management software and make companies more efficient in their areas of operations. Companies looking for greater value added and outstanding features from their business software will find their needs anticipated and satisfied with Open Pro systems. OpenPro's enviable reputation precedes it in the industry with its excellent business software.

Open Pro is also well known for its effective use of open source technology. Open Pro's open source technology subsequently results to its business software initial purchase price and the ongoing maintenance expense that is less than half that of Microsoft's Windows-based ERP software solutions. Thus, the return on investment is generally expected within the first year of use. OpenPro's business solutions works for a wide range of industries and with a full suite of applications within six modules:

Integrated Accounting

OpenPro's award-winning accounting solutions are designed to facilitate growth and smoothly migrate to the next level of sophistication in the OpenPro Software family.

Manufacturing

OpenPro's solutions apply to small, custom job shops to multiple warehouse operations and process manufacturers. The functional needs of manufacturers are OpenPro's major focus. With OpenPro's web-based products all of the company's data are available at every location.

Distribution Supply Chain and Retail Point Of Sale

OpenPro's distribution solutions are well suited for durable or non-durable wholesale distribution companies, regardless of the size or nature of their businesses.

Customer Relationship Management & Contact Management

OpenPro's customer relationship management (CRM) solutions delivers high-quality customer service and help companies maximize every contact.

Human Resources and Payroll Solutions

OpenPro's integrated line of Human Resources, payroll, benefits, and compliance solutions provides comprehensive and robust tools that streamline critical employee-oriented business processes.

Fixed Asset Management

OpenPro's fixed asset management solutions meets the diverse demands of growing businesses, including solutions for government, schools, and nonprofit organizations.

OpenPro's expertise is to provide ERP functionality to small and medium-sized business (SMBs), whose need for affordable and less complex software solutions has not been met by traditional ERP

vendors. Since 1998 OpenPro have been known for its web-based business ERP software systems comprised of two ERP products: Easy ERP and OpenPro Enterprise. Easy ERP is designed for companies with 20 users or less that are seeking prepackaged application modules and a limited number of database types. On the other hand, OpenPro Enterprise is designed for larger companies with more than 20 users with more options of database, operating systems and functional components.

OpenPro business software has been installed in over 200 locations around the world. OpenPro has offices and 75 distributors around the world including the US. OpenPro, Inc. USA head office is at 10061 Talbert Ave #200, Fountain Valley, CA 92708 USA with Telephone 714-378-4600 and Fax 714-964-1491. The client can email infoop@openpro.com. for the closest location and can ask questions through an on-line form or chat on-line. The client interested in OpenPro's industry leading software solutions can visit: [Openpro](http://www.openpro.com).
