According to the news in July 2nd, third-party game crack organization named Skidrow announced that they have cracked the Diablo 3, and released the integrated version of Diablo 3 LAN on-line version. Cracked version of the Diablo 3 temporarily is not available for download. Skidrow claims that it is because this is a technical test version of the client and there a lot of shortage.

Diablo 3 Blizzard launched a new flagship product in 2012, on May 15 line. Game to create a new sales record at the same time, the frequent occurrence of various problems of the server and the new trading system for numerous players frequently grievances on the Blizzard. Many of the original Diablo 2 players hope that this generation of games will also join the LAN function.

The Skidrow the crack results caused a wide-ranging discussion on Facebook and Twitter, some players believe that the crack more symbolic than practical significance, after all, not how many players to meet a person sitting in front of the computer repeated behavior of the farm, once only visible to stabilize the server, the official server is a huge market and social networking will have unparalleled advantages. Also suggested that not all of the players or the game as a stand-alone play, and they do not like the shackles by the server and network.

The Skidrow a foreign game and groups, if China region is the proliferation of pirated games market, the Skidrow even if the primary supporters of this market, they break almost all well-known head of the game. Such as Call of Duty series, Resident Evil series, Assassin's Creed series, and cell division, or even World of Warcraft PW emergence them a large portion of power.

This version from Skidrow is currently in the primary testing phase, there are still a lot of shortage in functions and effects, and it is Technology experiment. If players want to have a try, they need to have a solid technical foundation and psychological qualities, and we do not recommend the average players try to learn them.
