Player Experience of Diablo Three Real Money Auction House by [Mr.lennon](#)

Article published on June 24th 2012 | [Computer](#)

U.S. service has been first to complete the 1.0.2c patch update, the server re-open the RMAH formally launched!

Please note that other regional server has yet to open a RMAH, and use of this feature is limited to US-registered service account. Expert mode can not use the RMAH.

To the opening of the RMAH, we want to first point to remind the players some important information about how the auction works and when it is on the line know how to use it.

The following is the region can use the payment method:

North America: battle net balance, paypal, Visa, MasterCard,, American Express, Discover

Europe: the balance of the war net, paypal, Visa, MasterCard, American Express, JCB, Visa Electron, Virtual Visa, Visa Delta

RMAH the goods on the line

We are ready to RMAH on line, we want to ensure that the commodity trading to be fast, stable and reliable. In order to reach this point, the RMAH will be the first to allow equipment transactions (such as weapons, armor and other equipment), the lines of other commodity trading will be good later on. Our team is stepping up its work in order to achieve the RMAH this feature to get open.

Injection of funds to battle net balance

For those about to battle net balance of players, please note that you may experience a delay in the injection of funds, when you hold a debit or credit card. Direct payment to purchase may need two weeks to complete, and credit cards (and other similar transactions) up to 3 days. Please remember when buying items and capital injections may be delayed.

RMAH description:

1. Gold trading is not open, the only equipment can be traded
2. the highest price of \$250
3. Each auction shelves in advance to receive the \$1 fee, selectable from the above accounts from battle net balance, or paypal button (after payment is received, net of transaction fees).
4. Many items as ceiling price of \$250, and 59% critical strike damage, 6% crit, 15% attack speed, 87 agility necklace / amulet, it is equivalent to 25 million gold coins less than gold to buy cheap .
5. players make the final 'calculation sell items can be the number of dollar IOS software
6. I Battle.net account location Australia (AUD AUD), but in the battle online also allows the use currency transferred into a USD U.S. dollar auction.
7. New Zealand, Australia and other countries is a U.S. service phone number can also be used to

bind war network, and receive text messages. If we charge, Please resend busy, the system sometimes be delayed by one minute to receive SMS

8.Each bid must be re-connected SMS, bid

9. the first use of the RMAH account may be frozen, need to change the password to unlock

10. sub-service RMAH is not open:

RMAH house to use the test:

We tried to use paypal to buy a piece of equipment, probably less than three minutes time display to complete the purchase (first received the e-mail 'The transaction is being reviewed', and then receive a second e-mail 'buying success'). Direct transfer to recharge needs 1-3 days to complete the transaction, and the paypal is at once the transaction is successful.

Have a paypal account you can add new payment method in the war online (add new payment method), and then into the game you can choose the paypal payment received some text messages to verify, enter and successful transaction.

600W Diablo 3 gold to buy less than an 8% crit, 137 Intellect, 16% attack speed amulets, but the line only sell \$60 in RMAH. The price of one, received text messages, confirm and show the purchase fails, there is no grab. It seems the good things of the RMAH is also fast chips.

Interestingly, the \$250 something, the bank records show paypal only deducted a 158.64. . . . Do not know is wrong or prepayments.
