Cheap A1 and Black Snap Frames: a Walkthrough by [Julia Roger](#)

Article published on August 10th 2012 | [Photography](#)

Before we talk about A1 snap frames and black snap frames, let us have a look at what are snap frames. Snap frames are nothing but the photo frames that you use to put your photo to bind and to protect it from any damage. You can display the framed photo onto the wall of your home. Snap is the other name of photo that is been clicked. There are many people who like to frame some of their memorable pictures and place them on the wall for display. It is not that every frame looks nice and makes the wall of your house beautiful. You need to choose the frames according to the style and color of the wall in your house. There are different types and sizes of picture or snap frames available in the market. A1 snap frames are one among those. A1 in this specified snap frame refers to the size of the frame. There are various other sizes that are available such as A0, A2, A3 etc.

The a1 snap frames are available in different colors as well. The cheapest among all the frames is the clip frames, which is most extensively used. The color the many people choose to have is black because the black snap frames go well with all the color and style of the wall since black is a universal color. There are standard sizes and variety available for black snap frames. Many people choose to use the metal frame as it is durable. There are wooden frames also available. The taste of frames varies from person to person. Different snaps would require different size and type of frames. These frames are easy to mount on the wall because of the screws and hooks that are provided.
