Article published on April 5th 2012 | Software

Because of the widely using of HD Camcorder, now it is really convenient to record family parties and other things you are interested in as HD video. If you want to transfer these videos to iPad in order to watching anytime, for a Mac user, firstly you have to convert HD to iPad on Mac. And iPad Video Converter for Mac will be your prior choice! It can convert HD to iPad MP4 video files easily and fast, and then transfer these iPad MP4 video files to iTunes and sync them to iPad.

As a full featured Mac iPad Video Converter, besides a HD to iPad converter, it is also with great capability to convert any video/audio format to iPad H.264 HD or H.264/MPEG4 videos.

Moreover, it surprises you with extra features of capturing images from videos in batches, extracting segments, specifying output file size exactly by Split option, and much more.

Supported HD Videos

Convert AVCHD (*.mts, *.m2ts), H.264/MPEG-4 AVC, MPEG-2 HD, MPEG-4 TS HD, MPEG-2 TS HD, Quick Time HD, WMV HD, AVI HD format and etc to iPad 720p H.264 HD, H.264, MPEG-4 video formats.

Supported SD Videos

Convert popular video format such as AVI, MPEG, WMV, DivX, MP4, MOV, RM, RMVB, ASF and 3GP to iPad video formats H.264/MPEG-4.

The step-by-step tutorial shows you how to convert HD to iPad on Mac. More instructive guidance as below:

* 1: Load Video Files

Download iPad Video Converter for Mac and run it. Load your video from computer by directly pressing "Add file" in the main interface, then select your HD video files in the pop-up window and press the "Open" button.

* 2: Set output files format

In "Profile" drop down list box, you may select output format "iPad â€“ MPEG4 Video" or "iPad - H.264 Video", then click "Browse" button to choose destination folder for saving output files.

Tip: For more settings of output file, click the arrow next to Basic Settings to change video properties in Advanced Settings.

* 3: Start conversion

Select the video you want to convert and convert HD video to iPad MP4 by clicking "convert" button in the upside tool bar.

Compared with other similar video converter, its advantages are:

*Adopt NVIDIA CUDA & ATI Stream Technology, and Multi-Core CPU acceleration technology to

bring you the highest speed and the best performance in video to iPad conversion.

*Multilingual Interface: English, German, Spanish, French, Japanese and Chinese interface languages are available.

In a word, iPad Movie Converter for Mac is an easy to use, fast in speed, and excellent in quality iPad video Converter. It enables you to convert HD to iPad on Mac fast and easily. There is also a windows version for you to convert HD to iPad compatible formats on windows.
