Newsy Multiple sources the Real story by [Anup](#)

Article published on July 11th 2012 | [Technology](#)

Newsy is one of the smartest news applications available in windows market place that enable you to browse through

multiple news sources like CNN, BBC, ABC, ALJAZEERA, France24, MSNBC, FOX News etc.

with extra ordinarily smart interface and high quality small videos. The main feature that adds stars in this

application is story sharing, you can share the stories and videos with your friend on your social networking platforms like facebook, twitter etc.

Experience of watching videos on this app is really fast and clear. In this application,

you can watch concise videos for 2 minutes by just a tap on your screen and with an extremely good downloading speed.

Videos can be watched in portrait mode as well as in landscape, just place the phone as you want.

Apart from that, any video story can be digged deeper, by just tapping on full story button and it can be read in text also.

This newsy app for windows phone has a home screen live tile, which highlights newest stories.

You can choose news and videos just going through several categories and share the stories with your friend,

either using your phone book/email or you can directly share them in your social networking profile.

At this time, Newsy supports only English language in download size of only 1MB for your windows7.5 phone.

You can get Newsy from windows market place absolutely free of cost.

According to me, it's the best free news app available in the market with best sources, awesome interface,

excellent sound and crystal clear videos. So if you have not installed the application yet, go get it man!
