Train Schedule

by Frank Antire

Article published on June 20th 2012 | Travel Tips

From the time railways information has been made available online, it has been very smooth journey for passengers. People can now check every detail from schedule to reservation within few minutes. IRCTC (Indian Railways Catering and Tourism Corporation Limited) is the website for checking any information regarding train schedule, fare etc. The complete process is unbelievably simple and very easy to look for details. You can check train schedules, ticket availability, and reservation status and buy tickets online.

There are basically two methods to check train schedule. The first method is to trace through train name or number. Go to the enquiries section on the website and click on train enquiry. Enter the train name and results will be displayed. Choose the train name whose schedule you are looking for. Total number of stops will be shown with station names. The arrival and departure time will also be shown. In normal conditions, there is no delay. Before leaving your home, it is best to check schedule. So if there is delay in arrival or departure, you can make arrangements accordingly.

The other method is to go to the section â€œtrain between important stationsâ€•. Select the source and final destination, travel dates, class such as sleeper, 3 AC economy, Third AC, Second AC, First AC (choose All class for all options), departure and arrival time (choose anytime for complete options), train type such as Rajdhani, Duronto, Superfast, Mail, Garibrath, Overseas etc (choose all types for full options) and one way or return journey. When you search as per the required parameters, a list will be shown showing train number, train name, days of run, arrival and departure time. Choose the required train and select Get Schedule. You will be shown train name and days or run and source. You will also be all the station names on the route, arrival time at each station, departure from each station, halt time at every station, distance from source station and day of journey.

Illustration to Get Schedule:

When you search for journey from New Delhi to Mumbai on a particular date, any class, any time, any train type and one way journey, you will be shown a list of trains such as Punjab Mail, Trivndrm Rajdhani, Paschim Express, Mumbai Rajdhani, Dehradun Express, BCT Duronto etc. When you select Duronto express, you will see there are no in between stops which is the specialty of duronto express. Select any of the available trains and click on get schedule to see more details like all stops, halt time etc.
